ceramica
SANT'AGOSTINO

METROCHIC

Generare continui movimenti e temi ed armonie di strutture, linee, disegni e colori, intonati su quinte di ceramica dotate di una musicalità visiva moderna ed elegante.

Questa è METROCHIC, una collezione in pasta bianca studiata per creare infiniti giochi da rivestimento con tre strutture tridimensionali bianche - a cerchi incavi, intrecci a canestro e ricami -, una carta da parati grafica e decorativa, cementine anche da pavimento sviluppate in 45 soggetti diversi - tutti nei toni del grigio e dal sapore vintage metropolitano -, un muretto colorato tipo maiolica satinata a tinta unita, un mini chevron ed un mini mosaico decorati a rilievo.

Basandosi su due fondi grigi ad "effetto cemento" - uno chiaro ed uno più scuro -, neutri ed esteticamente pulitissimi, ai quali si abbina il pavimento coordinato in gres, la collezione esprime la propria cifra estetica di vivace raffinatezza attualizzando stili, forme e pattern cromatici e geometrici del passato al gusto del design contemporaneo.

Creating continuous movements, themes and harmonies of structures, lines, designs and colours, with a modern and elegant visual musicality. This is METROCHIC: a white body collection designed to create countless wall games with white three-dimensional structures - in hollow circles, intertwining structures and embroidery. One graphic and decorative wallpaper pattern, even cementine floor tiles developed in 45 different subjects - all in shades of grey and metropolitan vintage flavour. One plain colour satin brick, one stitched-fabric effect - a relief decorated mini-chevron and mini-mosaic. Based on two concrete-effect grey plain tiles - a light one and a darker one -, neutral and aesthetically immaculate, combined with a matching porcelain floor, the collection shows its aesthetic refinement with styles, shapes, colour and geometric patterns from the past tailored to the taste of contemporary design.
