

PERCORSI

Made in Italy

Selezioniamo le migliori materie prime e, secondo canoni estetici e funzionali, le trasformiamo in prodotti che interpretano con creatività il gusto italiano. Utilizziamo in uguale misura passione e tecnologia, cura del dettaglio e precisione, chimica e cultura, estetica e attenzione all'ambiente. Per noi Made in Italy è racchiudere tutto questo in ogni singolo prodotto.

Made in Italy

We pick the very best raw materials and we follow aesthetics and functional criteria to turn them into products embodying Italian taste and excellence. We sharply combine passion and technology, creativity and accuracy, science and culture, and environmental friendliness. To all of us, Made in Italy means gathering these features into every single product.

Greenthinking

Recuperiamo il 100% dell'acqua, autoproduciamo il 65% dell'energia, differenziamo il 98% dei rifiuti. Siamo stati i primi del settore ceramico a ottenere la certificazione PEF e tra i primi a guadagnarci l'EPD, la FDES e la HPDC. La maggior parte dei nostri prodotti è compatibile con lo standard LEED - Leadership in Energy and Environmental Design. Questo per noi è Greenthinking: un promessa molto seria, un impegno quotidiano.

Greenthinking

We recycle 100% of our water, produce 65% of our energy, separate 98% of our waste. We were the first company in the ceramic industry to obtain PEF certification and were among the first to earn the EPD, the FDES, and the HPDC certifications. The majority of our products comply with the LEED - Leadership in Energy and Environmental Design - standard. Greenthinking implies a solemn promise, an everyday commitment.

ISPIRAZIONE/ INSPIRATION

Senza confini

Abbiamo creato una famiglia di tre collezioni ispirate all'eleganza primaria della pietra: Percorsi Extra, Percorsi Smart e Percorsi Quartz. Ricalcano con cura strabiliante diverse rocce naturali e le declinano in decine di toni e formati. Come punto di incontro tra ambienti esterni, domestici o commerciali, le superfici lasciano percepire lo spazio in tutta la sua estensione, in un continuo visivo e fisico senza precedenti.

The origin of extraordinary

We've created a family of three collections inspired by the innate elegance of stone: Percorsi Extra, Percorsi Smart, and Percorsi Quartz. The range has been designed with exceptional attention to detail, offering a surfeit of tones and formats that simulate the natural variations in the tones of rock. The tile's manufacturing techniques and resistant surfaces make it perfect for outdoor, domestic, or commercial areas.

3 COLLEZIONI/ COLLECTIONS

11 COLORI/ COLORS

Gamma Percorsi

Percorsi Extra e Percorsi Quartz, con 4 tinte ciascuna, e la linea Smart, con 3 tonalità, condividono un'estetica tattile ed evoluta la cui intensità cambia secondo la fisionomia di ogni pietra. Le superfici, con struttura R11, R10 o con finitura R9 naturale, sono resistenti e ingelive. Percorsi è una risorsa preziosa, ricca di spunti progettuali: conta 11 colori per 15 formati, alcuni disponibili in spessore K2 (20mm) e K3 (30mm), ideali per outdoor senza tempo. I grandi formati raggiungono i 120x240 cm, i più piccoli i 15x30 o i 20x60. Per varietà e coesione, la linea abbraccia tutte le esigenze architettoniche dei nostri tempi.

Percorsi range

The Percorsi Extra and Percorsi Quartz collections, with 4 colors each, and the Smart line, with its 3 shades, have a tactile and warm aesthetic which varies in intensity according to the features of each stone. The R11 and R10 manufacture techniques, as well as the natural R9 finish, make the surfaces resistant and frostproof. Percorsi inspires a huge variety of design ideas: it has 11 colors and 15 sizes. Some formats are available in K2 (20mm) and K3 (30mm) thickness - ideal for timeless outdoor spaces. The largest available reach 120x240cm, the smallest 15x30 or 20x60cm. By its variety and cohesion, the line embraces every architectural need in our times.

INTERNO-ESTERNO IN CONTINUITÀ

INTERIOR-EXTERIOR CONTINUITY / CONTINUITÉ EXTERIEUR-INTERIEUR / AUBEN UND INNEN IN KONTINUITÄT /
SUPERFICIES CONTINUAS EXTERNOS-INTERNOS

IT_

Abbiamo creato superfici con spessori fino a 30 mm per l'esterno, in abbinamento esatto a quelle realizzate per l'interno: è così che rilanciamo spazi in cui la soglia tra indoor e outdoor è solo una scelta di progetto. Per dare nuovo respiro alle strutture, questi strumenti innovativi liberano architetti e progettisti da vincoli estetici e promuovono l'integrità visiva e fisica degli ambienti.

EN_

We have created outdoor surfaces with thicknesses up to 30 mm, exactly like those for indoor use. In this way, we relaunch spaces in which the divide between indoors and out is simply a design choice. Giving structures wider scope, these innovative tools free architects and designers from aesthetic constraints and promote the visual and physical integrity of spaces.

NUOVE DIMENSIONI

NEW DIMENSIONS K2 20MM - K3 30 MM

**120x120 K2/ 30x240 K2/
120x240 K2 e 60x60 K3**

IT_

Gli spessori per esterni, uniti alle tecniche di styling più avanzate, rendono le superfici K2 (20 mm) e K3 (30 mm) corpose, resistenti a tutto, inalterabili nel tempo, adeguate a ogni condizione climatica. Per moltiplicare la libertà di architetti, designer e progettisti, il progetto K2 si arricchisce di formati Plus, con elementi in gres porcellanato fino a 120x240 cm.

EN_

The outdoor thicknesses, combined with the most advanced styling techniques, ensure that K2 (20 mm) and K3 (30 mm) surfaces are substantial, fully resistant, unchanging over time and suitable for use in any climatic conditions. To further increase the freedom of architects, designers and landscape designers, the K2 project is enriched with Plus sizes, with porcelain stoneware elements up to 120x240 cm in size.

POSA DI K2 20MM

INSTALLATION OF K2 20MM TILES

IT_

Le lastre K2 possono essere posate a secco direttamente su sabbia, ghiaia o fondi erbosi consentendo di ottenere un pavimento immediatamente calpestabile senza la necessità di un massetto e senza l'uso di malte e colle.

Lo spessore di 2 cm di K2 abbinato alla posa a colla tradizionale permette di realizzare superfici estremamente resistenti capaci di sostenere senza problemi il passaggio e la sosta di autoveicoli.

Inoltre le lastre di K2 si integrano perfettamente con evoluti sistemi di supporti che permettono di creare pavimentazioni sopraelevate capaci di risolvere efficacemente situazioni di planarità e di alloggiare impianti elettrici e idrici.

1- POSA A SECCO IN APPOGGIO

Erba - Ghiaia - Sabbia

2- POSA SU MASSETTO CON COLLA

3- POSA SOPRAELEVATA CON SUPPORTO

EN_

K2 slabs can be laid dry, straight onto sand, gravel and grassy surfaces, making them instantly usable, without the need for a substrate or the use of mortars and adhesives.

The 2 cm thickness of K2 tiles, together with the conventional adhesive laying method, allows users to create sturdy tiling which can withstand the weight of traffic of all kinds, as well as parked cars. K2 tiles also fit perfectly with advanced support systems used to create raised flooring, which can overcome flatness problems and provide room for housing plumbing and electrical facilities.

1- DRY LAYING

Grassy ground - Gravel - Sand

2- LAYING ON SCREED WITH ADHESIVE

3- RAISED LAYING WITH SUPPORT
